

Sanitary District No. 1

Town of Lyndon Sheboygan County Wisconsin

TO: Residents in the Harbor Lights Resort Area

FROM: Sanitary District Commissioners

DATE: October 6, 2009

RE: Sewer Repairs and Planned Power Outage

Recently we sent a letter to all the Harbor Lights Resort area residents regarding sewer repairs to be taking place. Initially we planned on two projects:

1. **Harbor Lights Road** – this project will not be done. We have reviewed the recent televising of the sewer main and have determined that though there are sags in the main, that the main is in sufficiently good shape and not in need of repair.

2. **Harbor Lights Court** - Starting the week of October 12th, the repairs to the sewer line along Harbor Lights Court will begin.
 - a. **Installation of Pilings** – in order to provide a stable base for the new sewer line to be installed between a manhole on Harbor Lights Court and a manhole on Harbor Lights road, 9 pilings will be driven in a line between those manholes. That line of pilings will go between the two trailers at addresses W6268 Harbor Lights Road and W6266 Harbor Lights Road. The pilings will be driven over the course of two days – Tuesday, October 13th and Wednesday, October 14th. This will be a noisy process because 12-14 inch diameter pilings will be pounded into the ground to a depth of 30 – 40 feet.
 - b. **Necessary Power Outages**
 - i. **Tuesday, October 13th** – from approximately 7:00 AM to Noon, the power line must be moved to enable the installation of the first two pilings. The power to the entire Harbor Lights area will be cut during that period of time. This will be an inconvenience for you; however, this is unavoidable.
 - ii. **Wednesday, October 14th through Thursday, October 15th** – The power will be cut for only those residences surrounding the construction of the new sewer line. The power will be off from 7:00 AM until approximately 5:00 PM on each of those days.
 1. Harbor Lights Road: W6268, W6266 and W6264
 2. Harbor Lights Court: N3026, N3030, N3034, N3038
 - c. There will not be any disruption to sewer service during construction; however, we ask that the residents of those addresses listed above on Harbor Lights Road and Harbor Lights Court limit their water usage during construction; i.e., please avoid using heavy amounts of water such as doing laundry.

Though we expect this process to go smoothly, if any difficulties are encountered that you need to know of, we will post an update at the Harbor Lights Bath House. We appreciate your patience with the unavoidable noise and power outage that will occur during this repair process.
